HOW TO USE THE DIRECTORY/ DIRECTORY MANUAL

Welcome to the Global Directory of Certified Peanut Processing Companies-2024. This directory primarily features peanut companies, all arranged alphabetically by company name.

For easy reference, we have created index by certification and index by country. The index by certification will help you scan the list of companies by 'certification'. For instance, if you want to source only from "Kosher" certified companies, you go to index by certification and under that look for "Kosher". You will find the list of companies that are "Kosher" certified and the respective page number. Like-wise, you can look for companies with other certifications such as BRC, ECOCERT, Fair Trade, HACCP, FSSAI, FSSC 22000, FSMA, FDA, Halal, IFS, ISO 22000, SMETA, EU Organic and USDA Organic. Within each certification type, companies are arranged alphabetically.

The second index is organized by country. You'll find companies listed alphabetically by country, making it effortless to locate companies based on their geographical location.

To find a specific company, simply locate its name in the index, note the page number, and turn to that page for detailed information.

We've compiled this directory by gathering information from Primary and Secondary sources. While we've taken great care to ensure accuracy, in case of any discrepancies that are beyond our control, we cannot be held responsible for inaccuracies. We request you to kindly bring to our attention, if you notice any errors.

This directory serves as a useful and handy resource for accessing information on certified peanut companies, offering valuable insights for industry professionals and enthusiasts alike.
